

From the Executive Director,

Thank you for considering the Production Company that will change how you view your school events. By viewing this brochure, you now have your finger on the beat of today's hottest trends, dances, and music. That's what the student body appreciates the most...all that hype, mixed with professionalism. That is what A Sharp Production strives for the most.

What is it that *YOU* are searching for when you hire a DJ Production Company?

- A Disc Jockey that can really mix it up, while playing all those great songs that you sing all year long even into the summertime.
- Amazing Lighting & Sound that will capture the excitement of the dance itself with each song that is played.
- And of course, additional options to customize your event with all the latest trends.

As a third generation entertainer who has developed production programs for the student body for over 20 years, it is my dedication to provide to you all of what you are searching for in a great Production Company. Please take the time and look through all of the options that A Sharp Production has in store for you. On behalf of myself, and my cast of headline talent, we look forward to entertaining you soon.

Musically Yours,

*Adam*
